Digital Explorium-Rejuvenating Education

Empowering the education by recreating the value system which was successfully followed but start disappearing from the campuses, Library and the pure interaction between the teacher and the student. With the help of modern technologies we are trying to bring back the old glory. Digital Explorium is invented to address the modern crowd with an effective utilization to empower the Education institutions to step ahead with the right technology. Come join us to create the next generation, Let us be creators not consumers, Leaders not followers, by an efficient implementation of infrastructure to enable the inquiry learning, and collaboration along with the availability of Globally refined reference copy left contents powered by Knowledgeware/ OCW from Massachusetts Institute Of Technology.
